Summer School 2010

Aimhigher...
Northamptonshire

Moulton College

Discover Uni Year 9 Students

Tuesday 20th July to Friday 23rd July 2010

Summer School – what is it?

A chance for students to experience what it is like to be a student studying in higher education. You will live in student accommodation at the University of Northampton and do project work in subjects that can be studied in further and higher education. You also do work on progression routes into higher education and work on your presentation skills. Summer School also focuses on having fun and meeting new people! You will do all sorts of activities such as going to Lazer Zone and loads of team building activities.

This Summer School works in a partnership with Moulton College. Subjects on offer will be:

Sport psychology

Nutrition and Health

Animal Welfare

Interior Design

I would recommend summer schools to everyone. It's a good experience of what uni life is actually like. It's a good way to see how easy is to make new friends in a new environment.
